

From Bryan and Renee Davis  
Monday, October 9, 2006

Dear Friends

The last few days have been tiring and difficult for our family. It seems that I have malaria again (just the beginning stages so its not super bad yet but I still feel tired and weak. And then the stress of taking care of the girls this weekend and me being sick has made Brian's IBS flare up pretty bad again. Please be praying for all of us during this time. I have started on treatment so I should be getting stronger in the next couple of days, but I am frustrated that my language study will have to be put on hold for at least this week. I feel bad that this is putting extra stress on Brian and causes him to have stomach cramps. . .and he feels bad that he isn't strong and full of energy to give me better rest for recovery! What a crazy cycle!

Another quick thought. . .we would like our next prayer letter to focus on Juli, Hannah, and Abby and their life here in Uganda. We thought that we might do some Q&A with them and would like your help with the questions! Please email us with your question that you would most like to ask each one of the girls (even Abby – we will interpret for you!) It can be anything about what life is like here for them, their favorite things, etc. We will be writing the letter by the end of this month so please respond by October 20<sup>th</sup>.

Thanks for your prayers – your partnership with us in this way is such a vital part of our lives and a real lifeline for us. William Carey once said . . .  
“I will go down, if you hold the ropes” That's exactly how we feel about you!

Corem Deo,  
Renee for all of us
